J&A #14-41

**JUSTIFICATION AND APPROVAL  
FOR USE OF OTHER THAN FULL AND OPEN COMPETITION**

1. Contracting Activity: Department of the Navy, Facilities Engineering and Acquisition Division (FEAD), Point Loma, San Diego, California.
2. Description of Action Being Approved: Upon the basis of the following justification, a contract modification is planned to extend the guard services for SPAWARSYSCEN-PACIFIC 83000, San Diego CA, with Allutiiq International Solutions, Inc. LLC, 3909 Arctic Blvd Suite 400 Anchorage, AK 99503-5710 and will be awarded without providing for full and open competition pursuant to authority of 10 U.S.C. § 2304 (c)(2) as implemented by the Federal Acquisition Regulation (FAR) 6.302-2. This contract action will extend the contract period of performance of CLIN 0001 Security Guard Services for a period of six (6) months from 01 October 2014 through 31 March 2015 for an estimated total value of \$1,104,085.80. Fiscal Year 2015 funds will be provided for these services.
3. Description of Supplies/Services: This contract modification will provide continued services to include all labor, materials, and equipment to provide Security Guard Services to continuously provide mission critical support 24-hours a day, seven (7) days a week. Security services include unarmed patrolling guards with entry and exit control, mobile patrol, escort and miscellaneous services.
4. Statutory Authority Permitting Other Than Full and Open Competition. The statutory authority permitting other than full and open competition is 10 U.S.C. §2304(c)(2), as implemented by FAR 6.302-2, Unusual and Compelling Urgency.
5. Rationale Justifying Use of Cited Statutory Authority: The Guard Services was awarded to Allutiiq International Solutions, Inc. LLC under contract N62473-08-D-0505, Task Order 0019 on 21 September 2011 with a Base Year and Two One Year Option Periods. The last date of performance is scheduled for 30 September 2014. During the last option period, the customer representative for SPAWARSYSCEN-PACIFIC 83000 (SSC Pacific) indicated that the Guard Services will be performed by Government Forces. Therefore, no follow-on contract will be needed.

On 3 September 2014, the FEAD Point Loma office was formally notified that the Guard Services Task Order would need to be extended in order to permit the Government more time to initiate the Government Services. Since the Government is not ready to perform the services, it is requested that the current Task Order be extended under FAR Clause 52.217-8 Option to Extend Services (NOV 1999).

Since this extension period is only a stop gap solution to allow SSC Pacific to complete the civilian hiring, this action is not considered a bridge contract as Naval Facilities Engineering Command Southwest (NAVFAC SW) is not required to procure a follow-on contract.

The requirement covered by this extension fulfills an existing Government need as evidenced by the client's email request to extend the Task Order. The customer indicates that Funds are available in the amount necessary to extend the Task Order.

The extension of the Task Order is the most advantageous method of fulfilling the Government's need, price and other factors considered. The Contracting Officer, after considering price, the Government's need for continuity of operations, potential costs of disrupting operations and other factors, has determined through an informal analysis of prices for similar services on other contracts awarded by NAVFAC SW, which market conditions for these services have not significantly changed over the past year. Potential savings in administrative costs for extending as compared to preparing, soliciting, and awarding a new contract would be a cost-savings as it will not require another mobilization/team formation.

(b) Contractor's unique capabilities and/or qualifications: Allutiiq International Solutions, Inc. LLC has successfully provided services under Contract N62473-08-D-0505-0019 for the last three (3) years. This gives Allutiiq International Solutions, Inc. LLC employee's inherent knowledge of the requirements of SSC Pacific. Allutiiq International Solutions, Inc. LLC has the management and personnel necessary to perform.

Delay in award of this contract action would result in serious injury to the Government. This proposed modification to extend the services for an additional six (6) months is urgently needed to avoid a disruption in guard services. Not having security services will adversely affect SSC Pacific's mission. Failure to continue guard services will force a shutdown of base security operations until replacement guards can be relocated from other contracts at a high cost per man hour.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable: Due to the urgency of this modification, market research for another qualified firm cannot be conducted in accordance with FAR Part 10. No other sources were contacted because of the "urgent and compelling" nature of the requirement discussed in paragraph 5.

The planned action covered by this J&A meets an exception to the synopsis requirements per FAR Part 5.202 (a)(2). The approved J&A will be released in accordance with FAR 6.302(c).

7. Determination of Fair and Reasonable Cost. This is a request for a contract modification to add additional six-months of services in the amount of \$1,104,085.80. Based on the current price schedule, the contracting officer has adequate information to ensure that the cost to the government for this contract modification will be fair and reasonable.

8. Actions Taken to Remove Barriers to Competition: The task order modification represents an action in response to an urgent need for continued contractor services to continue security services six (6) months while the Government completes the civilian hiring process for qualified individuals. Upon completion of the hiring of Government civilians, no further contract actions will be required to provide guard services. Therefore, removing or overcoming future barriers to competition is not applicable in this instance.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein are complete and accurate to the best of my knowledge and belief.
